

PHYS2350 Fall 2017 Exam 2 Breakdown

Exam 2 for PHYS2350 EV1 will be held on **Thursday, October 26**, for the first 1 hour and 15 minutes of our regularly scheduled class time. As before, there will be 5 multiple choice questions and 4 free-response problems. The difference is that instead of answering 3 of the 4 free-response problems, **you may answer the fourth problem for extra credit.**

The following chapters and their corresponding sections will be on the exam:

- Ch 5 Circular Motion & Gravity: 5-1, 5-2, 5-4, 5-5, 5-6, 5-7, and 5-8
- Ch 6 Work & Energy: 6-1, 6-3, 6-4, 6-5, 6-6, 6-7, 6-8, 6-9, and 6-10
- Ch 7 Linear Momentum: 7-1, 7-2, 7-3, 7-4, 7-5, 7-6, and 7-8

As with Exam 1, there will be a review session before the lab session on **Tuesday, October 24.**
